

TaskFlow Billing & Terms

Official billing policy, refund terms, and invoicing reference. Effective for all TaskFlow subscription plans.

1. Plan Changes

Users can switch between monthly and annual billing at any time from Settings > Billing > Plan. Plan changes take effect immediately, with charges prorated for the remainder of the current billing period.

2. Refund Policy

- **Accidental duplicate charges:** always eligible for a full refund, processed within 3-5 business days.
- **Accidental plan upgrades:** eligible for reversal and refund of the difference within 7 days of the charge.
- **Standard subscription cancellations:** no refund for the current billing period, but access continues until the period ends.

3. Invoices & Billing History

All invoices are available under Settings > Billing > Invoice History. Invoices are generated automatically on the billing date each month or year, and are available as PDF downloads going back **24 months**.

4. Price Changes

Existing customers are notified via email at least 30 days before any price change takes effect. Customers may cancel or lock in their current rate by switching to annual billing before the change date.

5. Payment Methods

TaskFlow accepts major credit and debit cards (Visa, Mastercard, American Express) as well as ACH bank transfer for annual Business plan subscriptions. Payment method can be updated at any time under Settings > Billing > Payment Method.

6. Taxes

Applicable sales tax or VAT is calculated automatically based on the billing address on file and shown as a separate line item on every invoice.

7. Plan Comparison Reference

Plan	API Rate Limit	Support
Free	100 requests/hour	Community forum
Pro	1,000 requests/hour	Email, 24h response
Business	10,000 requests/hour	Priority email + chat
